

NAUFAL SYAFI' HAKIM

+6288806898411 | naufalsyafi4@gmail.com | www.linkedin.com/in/naufal-syafi-hakim

Surabaya, Indonesia

Final-year Information Technology student at Institut Teknologi Sepuluh Nopember with internship experience, organizational involvement, and experience as a teaching assistant. Has a solid foundation in programming and system thinking, with exposure to applied AI concepts. Adapts quickly to new tools and technologies, works effectively in team-based environments, and is motivated to further develop hands-on experience across software development and data-driven roles.

Work Experiences

Telkomsel - Surabaya, Indonesia

Jul 2026 - Aug 2026

Fullstack Developer Intern

- Built a real-time Live Tracker Dashboard Web Application to streamline weekly Salesforce performance audits, integrating multi-layer GPS mapping, outlet geofences, cluster boundaries, 7-day route replay, automated stop detection, and achievement tracking to reduce manual audit effort and enable faster performance visualization.
- Architected a high-throughput Django location ingestion API handling continuous GPS coordinates from 400+ devices with idempotent event processing, deduplication, and real-time geofence triggering.
- Designed and implemented an asynchronous geofencing worker using PostgreSQL as a durable job queue, achieving production p95 latency under 200ms and queue lag under 2 seconds.
- Engineered a React Native (Expo) Android app with persistent background GPS tracking, native Kotlin modules for mock-GPS detection and OS kill-resistance, and an offline-first location queue with zero data loss during network outages.

Social Economic Accelerator Lab - Malang, Indonesia

Feb 2026 - Jul 2026

Data Scientist Intern

- Developed a robust automated data ingestion pipeline using Python and Selenium to programmatically extract 6,000+ records from dynamic web sources, bypassing complex UI structures and ensuring consistent data flow.
- Implemented automated data validation scripts to identify and prune 20% duplicate records and missing values, ensuring data integrity for downstream analytics.
- Developed interactive Metabase dashboards integrated with a 5GB+ size real dataset to serve public data transparency.

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

Sep 2025 - Dec 2025

Assistant Lecturer of Law and Ethic of Information Technology

- Provided structured feedback on student performance and handled grade-related inquiries including maintaining grade records using Excel, clarifying 100% miscommunication between students.
- Filled in 100% attendance lectures when the lecturer was unavailable to maintain class continuity.

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

Feb 2025 - Jun 2025

Database System Assistant Lecturer

- Facilitated communication between the lecturer and students by clarifying course materials and guiding them through data-related tasks, including basic and advanced SQL concepts gaining 90% positive feedback at the end of semester.
- Assisted students in understanding and practicing SQL queries and introductory database workflows during lab sessions and group assignments, including exposure to MongoDB ensuring 95% of the class get scores above the passing grade.

Himpunan Mahasiswa Teknologi Informasi ITS - Surabaya, Indonesia

Sep 2025

Project Officer of Basic Media Schooling HMIT ITS 2025

- Lead the end-to-end planning and execution of the training event with strong managerial skills, including timeline management, task delegation, and team coordination ensuring the plan executed with 100% in its realization.
- Monitored project progress using Spreadsheet and Notion, resolved on-site issues, and ensured the event met quality standards and attendance targets by 80%.

Education Level

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

Aug 2023 - Aug 2027 (Expected)

Bachelor of Information Technology, 3.81/4.00

Organization Experiences

Himpunan Mahasiswa Teknologi Informasi ITS - Surabaya, Indonesia

Mar 2026 - Present

Vice Head of Media & Information Departement

- Conducting weekly design assists significantly improves the quality of posts and reach over 2,000+ engagement

Media & Information Staff

- Created and published visual and written content for organizational social media, generating 4,000+ engagements and contributing to 1,500+ new followers.
- Designed promotional materials and social media assets using Figma, Canva, and Adobe tools supporting campaign reach and visibility over 4,000+ likes

Certifications

- **Data Analysis using Python** (2025): Issued by IBM
- **Data Science Methodologies** (2025): Issued by IBM
- **Python for Data Science** (2025): Issued by IBM
- **LLM Guide for Developers Basics to Practical Applications** (2025): Issued by Udemy
- **Advanced Training for Organizational Management HMIT** (2025): Issued by HMIT ITS
